

SUBMITS STATEMENT OF VIRGINIA RAPPE

Arbuckle Witness Says She Stated She 'Must Have Been Intoxicated.'

PHYSICIAN ON STAND

Actress 'Did Not Recollect Anything That Happened' at Party.

OFTEN TORE AT CLOTHES

Witness Say Girl Would 'Double Up and Cry' Because of Pain.

SAN FRANCISCO, Nov. 25.—Miss Virginia Rappe, motion picture actress, whose death, the State charges, resulted from injuries received at the hands of Roscoe C. Arbuckle, was represented in a statement read at the Arbuckle manslaughter trial here today as having stated to Dr. M. E. Rumwell, San Francisco physician, that she "must have been intoxicated," for she could not remember what had happened during the course of a party in Arbuckle's hotel rooms here. Dr. Rumwell testified to having attended Miss Rappe after the party.

Under cross-examination, Miss Morgan testified to having attended a South Pasadena woman during an operation. The prosecution explained that by bringing out this information it wished to establish a motive for Miss Morgan's statements regarding Miss Rappe. That line of evidence was stopped by the court.

The crowds were so dense at the opening of the afternoon session that the defendant and counsel had difficulty in reaching their seats.

Mrs. Bambina Maude Delmont, who brought the charge of murder against Arbuckle, which was later reduced to manslaughter, was a spectator. It was her first appearance since the trial began.

Dr. Lloyd Bryan of San Francisco, a defense medical expert, was the first witness. He was followed by Dr. George Franklin Shields of San Francisco.

Both physicians testified that bladder rupture of the nature suffered by Miss Rappe might under certain conditions be caused spontaneously. The prosecution contends that they were caused by external force applied by Arbuckle. Dr. Shields illustrated on a blackboard how alcoholism or hysteria may cause such ruptures.

The reaction of shock from a cold might produce the injuries referred to, he said. Miss Rappe was given such a bath at the time she is alleged to have been injured. Under cross-examination he admitted that there is a sharp difference of opinion among authorities as to the causes of bladder rupture.

Mrs. Delmont sat close to Mrs. Minta Thorne Arbuckle, wife of the defendant, but as far as could be seen the women did not glance at each other.

Arbuckle apparently was unmoved by the evidence. He appeared more cheerful during the recess periods than he has been for some time past.

Miss Jennie Neighbors told of having met Miss Rappe at a summer resort near Los Angeles and of having ministered to her, at the girl's request, for what seemed to be abdominal pains.

Harry B. Barker, a ranchman of Stockton, said he had known Miss Rappe intimately for five years and that he had seen her on several occasions "all doubled up and tearing at her clothes." Once, he said, she appeared to suffer greatly after drinking a small glass of wine. Barker said he had a real estate business in Gary, Ind., as well as his ranch in California.

Miss Rappe told him she had been drinking and "she did not recollect anything that had happened," Dr. Rumwell

CHICAGO SCIENTIST MODELS MOLECULE WITH ITS ATOMS

Prof. Jared K. Morse Finds Miniature Solar System Within Each Chemical Unit—Measures Speed of Electrons.

Special Dispatch to THE NEW YORK HERALD. CHICAGO, Nov. 25.—The molecule, smallest possible unit of a chemical compound, after thousands of years in modern retirement came forward at the University of Chicago today to be photographed and cast in everlasting bronze. The molecule's portrait, which was one of the principal exhibits at the one hundred and eleventh meeting of the American Physical Society, was prepared to illustrate a paper by Prof. Jared K. Morse.

The molecule as exhibited in all its unexpected beauty at Ryerson laboratory is nine inches in diameter. Its component atoms are spaced in accordance with measurements obtained by Prof. Morse are represented by putty balls in various colors.

"The model is 250,000,000 times as large as the original," said Prof. Morse

in discussing his work. "We have succeeded for the first time in applying three dimensions to the molecule and through this added knowledge of its nature we may be able to predict new compounds such as dyes and fuels."

Prof. Morse pointed out that these models show what has been often suspected—that the molecule and its atoms have an arrangement similar to that of the solar system, that bodies revolving around other bodies make up all matter.

Prof. Loeb in his paper announced that new measurements had shown electrons to be of much greater speed than hitherto supposed.

"A velocity of more than 300 feet a second was observable in an electron of nitrogen," he stated. "When we get some insight into the nature of this motion of the electron we shall arrive at some idea of the nature of the surface of the molecule itself."

testified. The prosecution moved that this testimony be stricken out, but the court allowed it to remain.

Dr. Rumwell said he saw no bruises or other marks on Miss Rappe's body. Dr. Rumwell was not cross-examined.

Miss Irene Morgan, nurse, of South Pasadena, said she was employed in Hollywood by Miss Rappe as housekeeper and nurse. She said she saw Miss Rappe tearing at her clothes "many times" and treated her at least five times for bladder trouble.

Her patient used to "double up and cry," presumably as a result of the trouble, the witness said.

After drinking intoxicating liquor Miss Rappe would tear her clothes off, she said.

CHICAGO RIDERS RETAIN TRANSFERS FOR REBATE

New Move Made in Fight for Nickel Fare.

CHICAGO, Nov. 25.—Judge Baker in Federal Court today authorized street car passengers to retain their transfers as rebates to be cashed in at three cents each if the surface lines lose their fight to retain the eight-cent fare, which the Illinois Commerce Commission has ordered reduced to five cents.

The five-cent fare was to have been effective this morning, but Judge Carroll yesterday issued a temporary restraining order prohibiting the city and State officials from enforcing the reduction.

Samuel Ettleson, Corporal on Counsel, pointed out that the extra three cents amounts to \$60,000 a day, or \$480,000 before the court hears the case, December 2.

NEW YORK MAN SHOTS ACTRESS; KILLS HIMSELF

Jack Grubb a Suicide; Cecile Bartley Badly Wounded.

HAMILTON, Ont., Nov. 25.—Cecile Bartley of Chicago, a vaudeville actress, was shot three times and probably fatally wounded today by Jack Grubb of New York, a member of the company, who shot and killed himself.

Grubb had been attentive to the young woman, it was said, and after the matinee today waited for her near her dressing room. He tried to speak to her as she passed, and when the young woman's companion, Helen Campbell, pushed him away he drew a revolver and shot Miss Bartley. He then turned the weapon on himself.

U. S. MUNITIONS FOUND UNFIT, SAY SPANISH

Semi-Official Declaration Published in Papers.

MADRID, Nov. 25.—Spanish newspapers today published a semi-official declaration stating that all ammunition acquired in the United States for use in the Spanish campaign was found to be unfit for use. Other references pronouncing American machine guns to be defective and American airplanes to be less for military purposes have aroused attention in some quarters.

An authoritative source is responsible for the statement that the Spanish army purchase commission in the United States accepted discarded stocks with full knowledge of their quality and that Spanish inspectors passed them.

BOND FORGER BURNS BOGUS \$1,437,000

George V. Halliday Used Home of Bible Society President for Last Operation.

EDITOR ALSO ARRESTED

Harry Turner Alleged to Have Had a Hand in Printing of Certificates.

Special Dispatch to THE NEW YORK HERALD. ST. LOUIS, Nov. 25.—George V. Halliday, bankrupt broker, who has been at liberty on bond on a charge of accepting money from clients for securities he never delivered, and who was arrested yesterday on a charge of counterfeiting \$1,500,000 in French Government bond certificates, burned \$1,437,000 of the certificates Wednesday at the home of Robert Ranken, 3154 Magnolia avenue, it was disclosed today.

"These were all the certificates Halliday had printed, according to his own confession, with the exception of \$62,000, which he deposited with two banks when seeking loans. He told today how the certificates were printed and said he was driven to it by his financial troubles."

TWO SWEAR THEY SAW MRS. RAGONA KILL MAN

Luciano Laughed at Her Insistence They Marry.

Two witnesses in the trial of Mrs. Josephine Ragona, charged with shooting and killing Frank Luciano, a furniture dealer, testified before Judge Crain in General Sessions yesterday they saw the shooting.

Mrs. Marie Di Mona of 2342 Second avenue told the court she leaned out of a window and heard Luciano and the defendant talking on the sidewalk. She said Mrs. Ragona demanded of Luciano if he were going to marry her, and the man laughed and walked away. He went into a bakery up the street and when he came out, Mrs. Di Mona testified, Mrs. Ragona shot him. She said she saw several shots fired.

Capitolo Magistro of 115 East 105th street testified he saw Mrs. Ragona fire at Luciano, saying he fell at the first shot.

WOUNDED MAN TAKEN FOLLOWING PISTOL DUEL

Prisoner a Brother of Man Slain Two Months Ago.

Three detectives searching Harlem for a man who had fought a pistol duel with a watchman upon being surprised in the act of stealing automobiles, fired at first avenue and 105th street, arrested yesterday at his home John Vieri of 312 East 105th street, brother of Joseph Vieri, also known as "Joe Vieri," who was shot and killed two months ago in Broome street.

Vieri was nursing a bullet wound in the right foot when Detective Ryan, Unger and Kochman arrived. He was taken to Harlem Hospital under arrest on a charge of attempted felonious assault. The watchman, Florio Chicore, said he observed a man attempting to remove spare tires from an automobile, and on approaching was met by a fusillade of shots. Chicore returned the fire, the police said, wounding the man in the foot.

the interest coupons, which were in error in that they specified the semi-annual interest at \$32.75 instead of \$37.50.

Discovery of \$43,000 counterfeit trust receipts for French Government 7½ per cent bonds was made at the office of J. P. Morgan & Co. Tuesday by a clerk in the special department created to handle exchanges of these bonds. The clerk was started at examining one of the receipts to find that it was of heavier paper and in a darker color than the others he had handled previously. An examination showed that the paper was fraudulent.

The exchanges began November 6 and this was the first counterfeit that had been discovered in \$50,000,000 in bonds that had been exchanged since then. Warning of the fraud was sent out over the Stock Exchange tickers.

CITIZENSHIP DENIED GERMAN.

When it was disclosed in naturalization court at White Plains yesterday that Israel Siemon, of 183 Main street Yonkers, had claimed exemption from the draft on the ground that he was German subject, Supreme Court Justice Young denied the application. Siemon also registered as a subject at the German consulate, it was shown, although he had previously declared his intention of becoming an American citizen.

Siemon told the court he claimed exemption because he feared if captured in an American uniform he would be shot.

FIREMEN RESCUE MANY AT TENEMENT BLAZE

Thirty Tenants Driven Up to Roof by Flames.

More than a score of persons, including women and children, were rescued by firemen yesterday from a tenement at 209 East Fifty-fifth street, where fire went up the wooden stairway and burned out the two upper floors.

About thirty tenants took refuge on the roof and were helped down aerial ladders; one man was carried down the burning stairs by Capt. Joseph Donovan while firemen played a stream of water on him, and Firemen Cousins and McMenamen used a scaling ladder to help a man, a woman and a child from a top floor balcony.

RELIEF SHIP GOING TO BATUMI.

The steamship Alaghuah will sail November 30 from Philadelphia for Batumi, loaded with relief supplies, it was announced yesterday at a luncheon of the Near East Relief Executive Committee by Charles H. Vickrey, general secretary. Among other supplies are ten tons of soap and five tons of cocoa contributed by manufacturers. Mr. Vickrey said famine conditions in trans-Caucasian Russia are worse than in the Volga region.

FOCH GETS WHITE PIG, GIFT OF IOWA LEGION

Is Put in Car to Keep Company With Bobcat.

MASON CITY, Iowa, Nov. 25.—A greeting to Iowa and a tribute to the State's part in the war was given by Marshal Poch in a brief address here this afternoon when the Legion special bearing the French war hero halted to permit him to pay his respects to Hanford MacNider, national Legion commander, and his home town.

Marshal Poch received a Chester White pig, "Iowa's pride," from the commander of the American Legion post here as a reminder of his visit to Iowa. The Marshal smilingly accepted the gift and had it sent to a car ahead to keep company with the bobcat given to him by the Montana delegation to the Kansas City Legion convention.

HELLO, MAYOR, SAYS GIRL OF 2

The 1921 Christmas Seal campaign was opened formally at City Hall yesterday when Mayor Hylan bought \$5 worth of the stamps from Fifi Squires, two-year-old daughter of Mr. and Mrs. John Astor Squires, of 27 East Sixty-second street. "Hello, Mayor," was Miss Fifi's greeting to the executive.

SEVEN stories of smart gifts! Literally, Ovington's is the happy hunting ground of the shopper in search of good gifts, and figuratively, the prices which are marked seem scarcely a fair measure of their value.
